United Nations Development Programme (UNDP) and United Nations Office for Disaster Risk Reduction (UNDRR), in co-operation with the European Union (EU) and Organisation of African, Caribbean and Pacific States (OACPS)

EU Contribution:

USD 21,264,402

Locations:

Togo, Kenya, Cameroon, Ethiopia, Burundi, and Chad

Project Summary

The **Strengthening Disaster Risk Governance and Recovery Capacities** project, funded by the European Union, is a collaborative effort between United Nations Development Programme (**UNDP**), the European Union (**EU**), the United Nations Office for Disaster Risk Reduction (**UNDRR**), and the Organisation of African, Caribbean and Pacific States (**OACPS**). This joint program is dedicated to **enhancing disaster risk governance, strengthening recovery capacities, and building resilience** in vulnerable communities. By **scaling-up community-based disaster risk reduction, enhancing capacity building activities, and conducting post-disaster needs assessments**, the project aims to pave the way for a safer and more resilient future for communities facing disasters.

Outcome 1:

Strengthened disaster risk governance to manage disaster risk in the targeted regions of Africa

- Output 1.1 Regional institutions in Africa have strengthened risk management capacity
- Output 1.2 Supported integrated solutions for risk-informed development planning and budgeting in Western Africa, Central Africa, and Eastern Africa

Outcome 2:

Enhanced disaster preparedness for effective response and to “build back better” in recovery

- Output 2.1 Increased risk awareness of communities and local stakeholders to take action that reduces risk in Western Africa, Central Africa and Eastern Africa
- Output 2.2 Strengthened post-disaster recovery capacities in all ACP regions
