

## UNDP & UN POL WEBINAR ON POLICE PLANNING DURING COVID-19 PANDEMIC: Challenges, Best Practices and Lessons-learned

### List of Resources & References

- Guidance Note on '**Police Planning during a COVID-19 Pandemic**': please find attached the latest version (English and French).
- Manual on community policing: <https://police.un.org/en/manual-community-oriented-policing-in-peace-operations>. It is part of the Strategic Guidance Framework <https://police.un.org/en/strategic-guidance-framework-international-policing>.
- DPO Combined Guidelines on Military-Police Coordination: Please find attached the English and French versions.
- WHO (2009) guidelines: the link is <https://www.who.int/publications-detail/whole-of-society-pandemic-readiness>
- Robotics policing: few articles give a feedback on the experience. Interesting on here: <https://www.robot-advance.com/EN/actualite-pguard-in-tunisia-containment-control-210.htm>
- On the lessons learned from Ebola, attached you can find the SOP developed by UNOCI and MONUSCO during Ebola pandemic.
- On the question about how women can reach out to police when they are victim of domestic violence, many examples are listed in UNDP brief-GBV and COVID-19 (<https://www.undp.org/content/undp/en/home/librarypage/womens-empowerment/gender-based-violence-and-covid-19.html>). For example, the code message "Mask-19" to alert pharmacies about a situation of domestic violence in Canary Islands (Spain) or the partnership between the police and the postal service in Cumbria (UK) to detect any signs of abuse during delivery.
- On contact tracing, the example of the experience in South Korea is very relevant. It was presented in a webinar organized by UNDP Seoul Policy Center. Attached you can find the resources shared during that webinar on the police experience in South Korea, including on contact tracing.
