

John Munthe

Vice President, Research

IVL Swedish Environmental research Institute, Göteborg, Sweden

Email: [john.munthe@ivl.se](mailto:john.munthe@ivl.se)

John Munthe has more than 30 years' experience of research and consulting on mercury, air pollution and chemicals. He has coordinated a number of national and international programs with focus on research in support of national regulations and international conventions. He has also a broad experience on consulting for international conventions such as UN ECEC CLRTAP (air pollution), UNEP/Minamata Convention (mercury). He is currently the Director of the Mistra SafeChem programme focussing on the development and promotion of a Green and Sustainable chemistry in collaboration with academic and industry partners.
