## Virtual Conference on Ecologically-Sustainable Digitalization in an International Context

Digitalization and increased appreciation of the need to move towards a more sustainable development within our planetary boundaries are the two main drivers of the comprehensive transformations which economies and societies worldwide will undergo in the decades ahead and are, in part, already undergoing. Each driver needs to make use of the dynamics triggered by the other. However, too often, challenges and opportunities linked to digitalization and sustainable development are discussed within separate communities or in national forums that neglect the globalized context (including the United Nations' 2030 Agenda) in which they occur.

The aim of this conference is to complement ongoing discourses on the interlinkages between digitalization and the ecological dimension of sustainable development from an international perspective. To this end, the event brings together experts and scientists, entrepreneurs, civil society representatives and policy makers from both communities and from across the world for an exchange of views and practical experiences on the following questions:

- // What concrete measures are needed to ensure the ecological sustainability of digitalization?
- // How can digitalization enable and support the transformation towards more sustainable development?
- // How can we learn from each other and cooperate on an international and bilateral level in order to create favorable framework conditions and promote promising initiatives for sustainable digitalization?

## Day 1 - May 19

10:00 h	Virtual doors open		
10:15 h	Welcoming Address		
	// Dr. Elke Siehl Head of Department GloBe, GIZ		// Dr. Davide Polverini Policy officer, European Commission
	// Jan Peter Schemmel CEO, Oeko-Institut		// Dr. Philip Schütte Federal Institute for Geosciences and Natural Resources
10:30 h	Opening Address		
	// Jochen Flasbarth State Secretary of the German Federal Ministry for the Environment, Nature Conservation and Nuclear Safety (BMU)		
10:45 h	Speed exchange among all participants: Main challenges, opportunities and potential blind spots of sustainable digitalization		
11:00 h	Digitalization and sustainable development – Interconnections of two megatrends and political priorities for shaping our common digital future		
	Keynote Address // Stella Tembisa Ndabeni-Abrahams (tbc) Minister of Communications and Digital Technologies, Republic of South Africa		
	Keynote Address // Prof. Dr. Dirk Messner President of the German Environment Agency (UBA)		
12:00 h	Break to network		
12:30 h	Discussion Forums: How to green digitalization - Integrated approaches over the lifecycle of ICT		
	» Forum 1: Responsible raw materials supply and production of ICT		
	// Thea Kleinmagd Circular material chains innovator, Fairphone		
	// Prof. Dr. Marie-Rose Bashwira Associate Professor, Université Catholique de Bukavu, Scientific Coordinator of the Research Centre on Gender and Development in Bukavu (DR Congo)		
	// Alejandro Gonzalez International coordinator Good Electronics Network SOMO		
		12:30 h	» Forum 2: Greening the internet backbone
			// Encik Shamsul Bahar bin Mohd Nor CEO, Malaysian Green Technology And Climate Change Centre
			// Rabih Bashroush Global Head, IT Infrastructure Advisory, Uptime Institute
			// Paolo Bertoldi Senior Expert, European Commission JRC
		12:30 h	» Forum 3: Towards environmentally sound management of e-waste
			// Dr. Deepali Sinha Khatriwal Managing Director, Sofies India
			// Elisabeth Smith Executive Director, StEP
			// Dr. Sampson Atiemo Director, Mountain Research Institute
			// Dr. Tadesse Amera Director, PAN-Ethiopia
		1:45 h	Panel Discussion: How to Ensure a Green Digital Recovery
			// Dr. Marc Schattenmann Head of Directorate IT, Digitalisation, Innovation and Research, German Federal Ministry for the Environment, Nature Conservation and Nuclear Safety (BMU)
			// Vivien Foster Chief Economist for the Infrastructure Vice-Presidency, World Bank
			// Dr. Axel Klaphake Head of Division, Economic and Social Development, Digitalisation at GIZ
		2:45 h	Concluding Remarks Day 1
