

**"Stockholm +50"** - a platform where countries and stakeholders will be able to share experiences and discuss ways to solve complex issues.

**The purpose of national consultation meetings is to discuss ideas and opinions that:**

- › Form a common vision for a healthy planet and prosperity of all
- › Give the government, civil society, and the private sector a clear indication of priority measures to be taken to achieve sustainability
- › Are inclusive and ensure the alignment of national and global goals

## Participants:

- › Public, private, and scientific sectors.
- › Civil society organizations working on environmental, agricultural, and other economic, social, and human rights issues.

The session will be devoted to good practices in combating ecosystem degradation; The discussions will also address challenges and solutions to human rights in a healthy and sustainable environment.

## National Consultations in Georgia:

**Tbilisi:** Partnership and Inclusivity - Accelerator of Environmental Dimension of Sustainable Development

The session will explore ideas and recommendations for sustainable development, taking into account the commitments declared in the 2030 agenda.

**Telavi:** A Healthy Planet for Prosperity of all - Sustainable Development under Depletable Resources

**Batumi:** Post Pandemic Recovery through Risk Mitigation and Sustainable Development

The session will discuss ways to facilitate post-pandemic economic recovery and opportunities to introduce green approaches and clean technologies.

National consultations are conducted by the United Nations Development Programme (UNDP) with the support of the Swedish Government.
