

“A healthy planet for the prosperity of all – our responsibility, our opportunity”

The UN General Assembly has agreed through two Resolutions to convene an international meeting entitled **“Stockholm+50: a healthy planet for the prosperity of all – our responsibility, our opportunity”**, in Stockholm on 2 and 3 June 2022, during the week of World Environment Day. The meeting will commemorate the 50 years since the convening of the UN Conference on the Human Environment. It is also designed to help accelerate the implementation of the Sustainable Development Goals during the Decade of Action including through a sustainable recovery from the COVID-19 pandemic.

The Government of Sweden will host the meeting with the support of the Government of Kenya. Leadership Dialogues have been designed to be collaborative and multi-stakeholder, and will address three themes:

- **Leadership Dialogue 1:** Reflecting on the urgent need for actions to achieve a healthy planet and prosperity of all.
- **Leadership Dialogue 2:** Achieving a sustainable and inclusive recovery from the coronavirus disease (COVID-19) pandemic
- **Leadership Dialogue 3:** Accelerating the implementation of the environmental dimension of sustainable development in the context of the decade of action and delivery for sustainable development.

Objective

The UNDP Mauritius Country Office has been mandated to facilitate national consultations and will be working in close collaboration with the Ministry of Environment, Solid Waste Management and Climate Change.

The objective of the national consultations is to stimulate an inclusive whole-of-society and whole-of-government dialogue on the main themes of Stockholm+50 as they relate to each national context.

In this context, you are invited to submit your comments on each of the three Leadership Dialogues, and on the following guiding questions. You are welcome to answer as many questions as you wish - any input will be appreciated.

Stockholm +50 National Consultation

6 April 2022, Youth and Persons with disabilities – Online session

Caudan Arts Centre

Leadership Dialogue 1: Reflecting on the urgent need for actions to achieve a healthy planet and prosperity of all.

- strict laws must be passed for cutting down big trees
- laws by the govt / min of environment
- Sustainable fishing practices.
- Eco Village
- Reduce, Refuse, and Recycle
- School , College & University to collect Waste and built a project such as (Sculpture , Arts work) place them it a spotted place .
- Educate Child for home gardening
- + Volunteer for clean ups society
- + Randonnée (est devenue une activité phare pour les jeunes qui organisent plus cela afin de sensibiliser les jeunes à la beauté de environnement et la nature
- Education and value of natural resources in our community
- co-creation towards common goals and objectives
- to include a full subject on environmental protection in school curriculums as this will empower the children from a very young age
- ongoing sensitisation campaigns in schools n colleges
- Help people that are in difficulties or people that are in bad condition or poor
- Should do more donations in orphanage
- Adopt the 3R's in our daily routine and share the knowledge among other surroundings
- Maximum use of renewable sources of energy and make it more easily accessible to the nation, likewise Solar panels.
- Awareness campaign.
- Plant trees
- Use of resources efficiently, avoid wastages.
- Apply laws to prevent pollution
- Creating gardens in every region.
- Promote 3 R's - Reduce, Reuse, Recycle
- Eco- friendly products
- Encourage sports, this will make youngsters be more connected with the nature.
- Healthy planet also means healthy people - like students have P.E classes, why not at least 30 mins of easy sports at working place. Make them more conscious about their health.
- healthier diet - promote greener environment - can provide households with vegetable plants, they can plant in pots and use it for their own benefit.
- Should not fight with other people instead we should sit and discuss the problem
- Government should give opportunities to the youth to develop eco-friendly enterprises.
- Mins of Agro should encourage the adoption of safer and more sustainable agricultural products. Train the farmers on the use of bio fertilisers instead of chemical based

- Encourage and help people moving towards green life. Cultivate and eat locally promote permaculture and aquaculture for a sustainable environment
- Il faudra agir pour que les générations futures puissent aussi bénéficier. Alors veillez à l'écosystème est le plus important dans cette quête, tout en protégeant la nature et notre environnement, utiliser équitablement les ressources naturelles, limiter le chauffage, dépensez moins, planter les arbres, privilégier les produits locaux et bio, recycler, fournir l'eau propre. Et apprendre aux jeunes comment s'intégrer dans la société, comment planter par exemple, les enseigner à la maison. Mettre en avant l'éducation.
- Reduce, Reuse and Recycle to conserve natural resources, Educating the young generation as they are the future of the society. The use of new sophisticated technologies such as plastic eating micro-organism, encourage reforestation on a global, national and local level, Use of biofuels from natural resources such as algae.
- More plantation of plants and encourage the youth to do so
- Organise clean-up activities and raise awareness at the same time
- Encourage people to plant at home
- Teach teenager how to plant at home so they can have the skill and continue at home
- Organise creative activity about environment
- Limit the amount of hotel construction to avoid deforestation and visual pollution
- A collaboration among the official bodies of countries to rebuild the society for a better one, implement teleworking and online teaching, Proper internet connectivity, Provision of hygienic products in public areas, Providing people in needs with basic essentials.
- Discussion to recap - Work towards co-creation, the challenge is ever constant, create evolving parameters for co-creation and transdisciplinary innovation

LD 2: Achieving a sustainable and inclusive recovery from the coronavirus disease (COVID-19) pandemic

- more green jobs
- A collaboration among the official bodies of countries to rebuild the society for a better one, implement teleworking and online teaching, Proper internet connectivity, Provision of hygienic products in public areas, Providing people in needs with basic essentials.
- Reversed the gains in global poverty for the first time.
- Covid-19 is a development emergency. All countries must rise to the challenge to save lives and safeguard livelihoods.
- Implementation Plan to help create green jobs and enhance sustainable development. The high impact such as food, energy and manufacturing are very key in some country's economic growth after Covid-19, thus this needs to be well articulated.
- A more resilient and sustainable practice to overcome the covid 19
- Investing in health systems (including vaccinations), education, and infrastructure.
- Covid fine donne nous une bon leçon et fine fer nous réfléchir sur l'importance d'un bon l'environnement vert et bleue.
- with all the damages caused and the accumulated crisis, it will be necessary to manage the resources in an efficient way by hammering in the agri food production, climate changed. strengthen the capacities of developing countries to achieve the objectives. and hammering on the technology. to reduce

inequalities between countries. invest on sustainable practice like vaccinations for the good health for all.

- Building Health System flexibility by supporting more local production.
- Investment in healthcare, provide more facilities - update existing technology.
- Help poor - promote equity.
- Creation of jobs.
- Psychology of human - Knowing the importance of every things in nature.
- Avoid dependency on non-renewable sources.
- Better buildings- replace windows reduce air leakage improve heating systems and switch fuels from coal gas and oil towards renewable energies such as wind and solar
- Better access to healthy food - to encourage people to consume more fruits and vegetables.

Leadership Dialogue 3: Accelerating the implementation of the environmental dimension of sustainable development in the context of the decade of action and delivery for sustainable development.

What kind of follow-up activities would you like to see from Stockholm+50?

- Regular consultation or plans
- Ecovillage (socially, culturally, economically, and ecologically)
- = 4R's
- Individual Planting and Trekking campaigns to create awareness.
- Parler aux jeunes dans les écoles pour les motiver et les sensibiliser
- Donner des plantes ou grains aux personnes et les encourager à avoir un petit jardin chez eux
