

# Introducing UNDPs Offers on Sustainable Finance

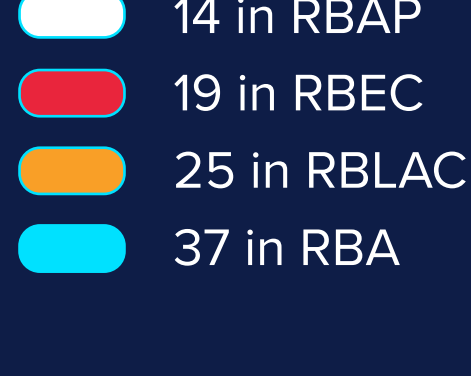

In 2022 the SDG Finance Academy reached:

ALL **5** REGIONAL BUREAUS

**112** COUNTRY OFFICES

OVER **270** PARTICIPANTS

- 17 RBAS DRRs in person
- 25 RBAP colleagues in person
- 65 RBEC and IRH colleagues in person
- 23 RBLAC colleagues on a webinar followed by 66 colleagues in person
- 74 colleagues in person for the RBA Academy including from ExO, ASFH, RSCA, GPN colleagues from Istanbul and Panama, UNCDF and RBA country offices)

## Specialized Trainings

In 2022 we also started delivering modules leveraging existing sustainable finance training efforts, which we will continue to further develop and refine. In 2022 colleagues delivered training on:

## Our evaluations have been consistently high as have our learning impact

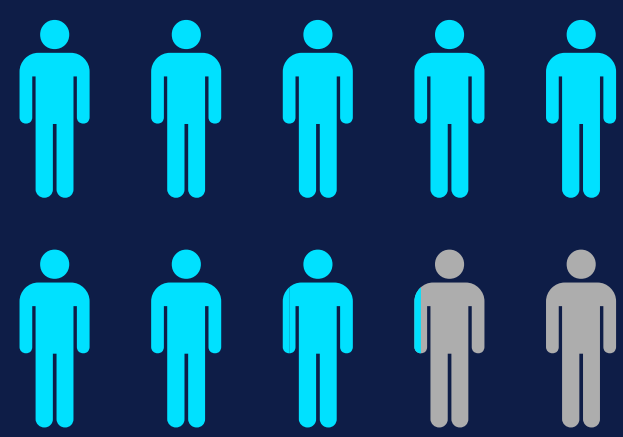

For example after each training **nearly all participants feel confident that they can describe what SDG Finance is**, and what UNDP's one trillion dollar moonshot for Sustainable Financing is to a person with no knowledge of the subject.

Comparing our pre and post survey data we can see clear results in learning outcomes. **All of our trainings are regionalised and contextualised and packed with country case studies, and most importantly, people learn while having fun!**

### After our training in RBEC:

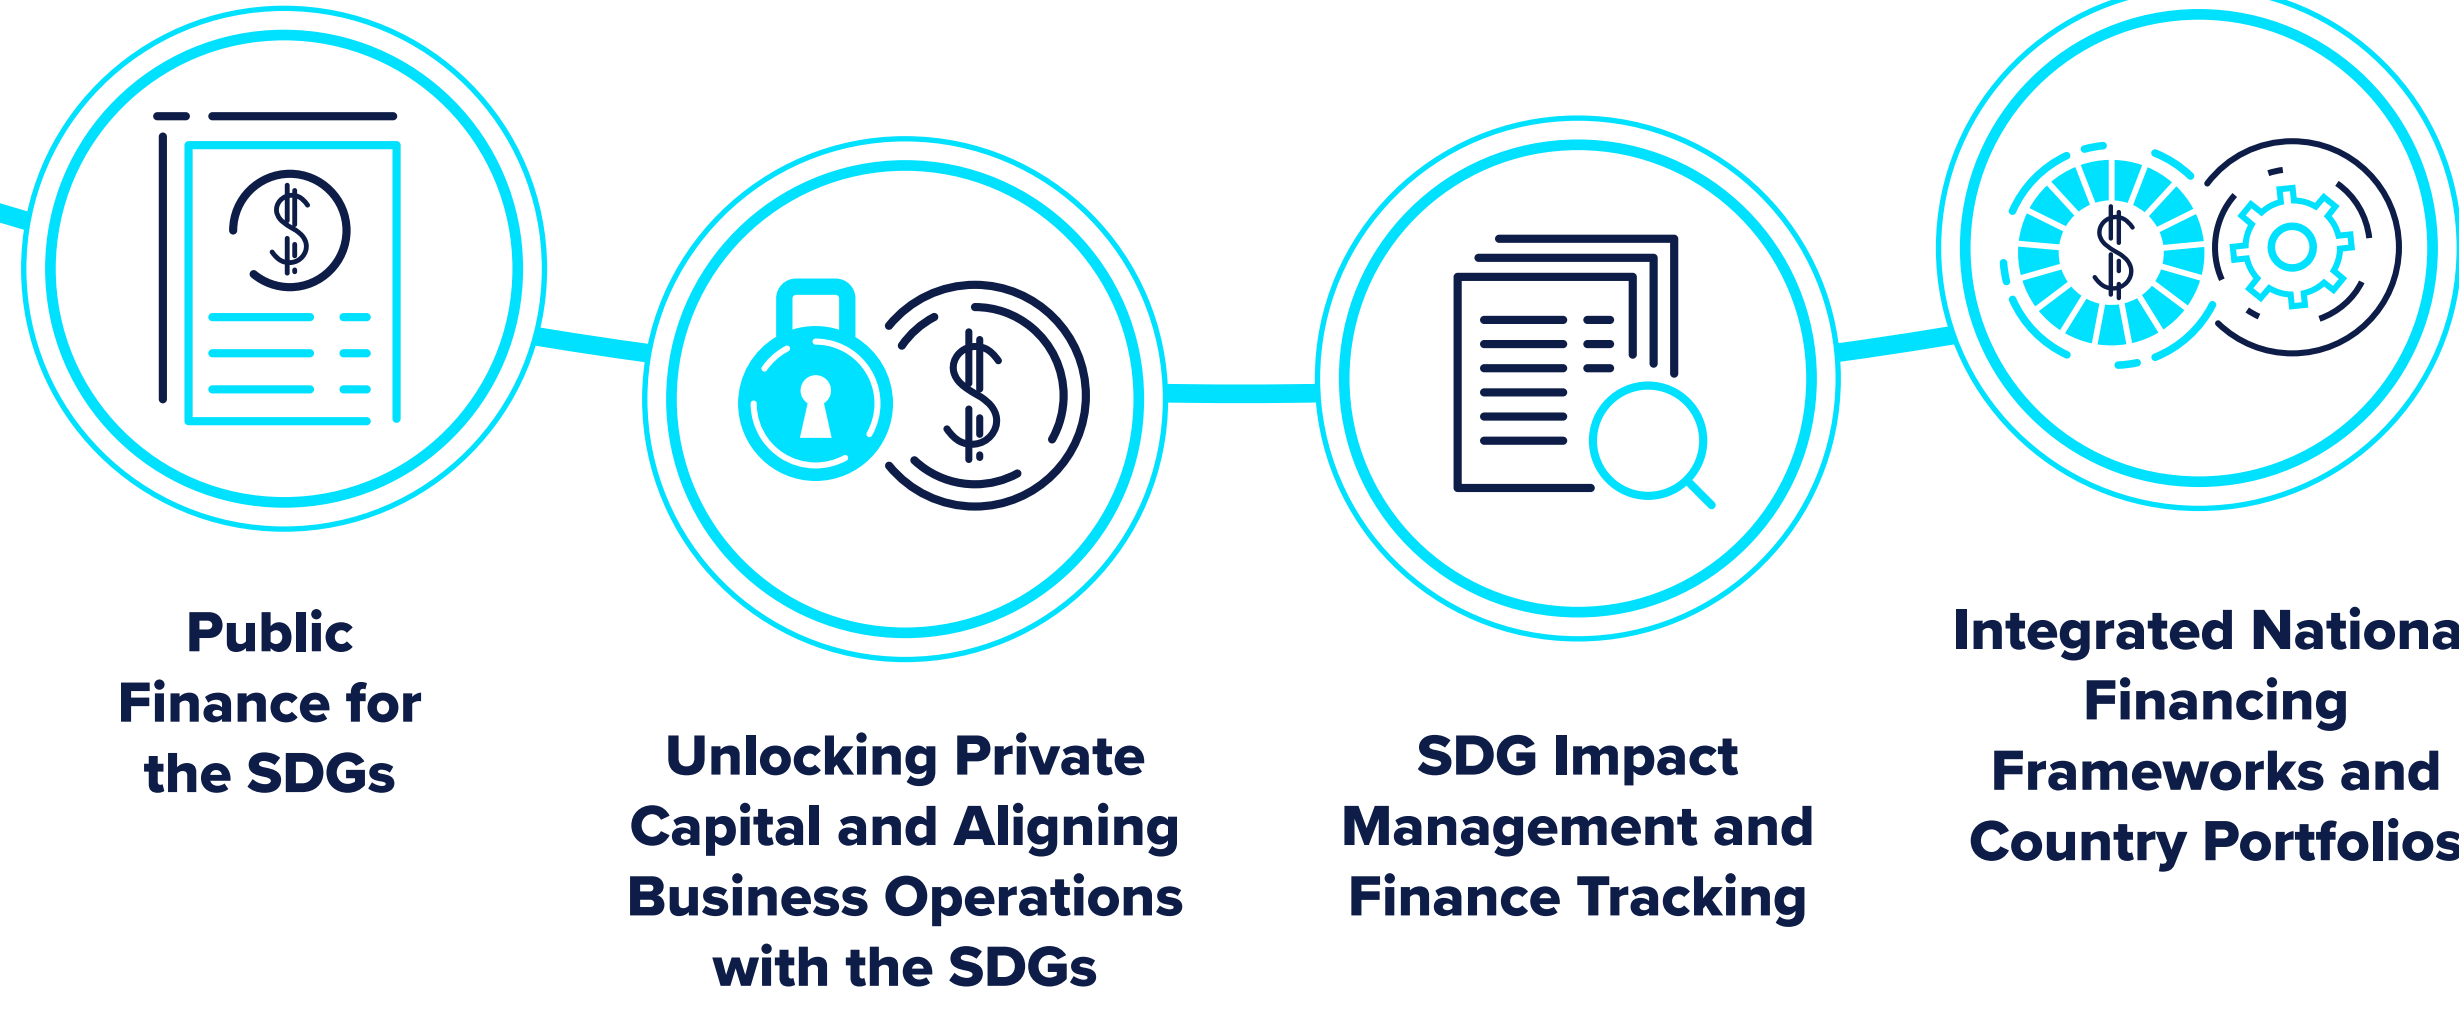

**81%**

of participants described the training as **excellent or the best they had ever undertaken**.

## The Plan for 2023

### TAKING A DEEP DIVE

In 2023 the Academy with Regional Offices, will deliver multi day training Deep Dives to Country Offices on each of our Sustainable Finance Offers:

- 1 In addition, we will develop **Deep Dive+ trainings on specific components of the Offers** focused on reforms and instruments to enable engagement with partners and clients.
- 2 We are developing **introductory training** for **Resident Representatives and Deputy Resident Representatives** to ensure they have the knowledge to generate and lead engagements with the public and private sectors on sustainable finance. This is a **result of the positive support for the SDG Finance Academy at UNDPs Resident Representative retreat in October 2022**.
- 3 We will deliver the **'Introduction to UNDPs 4+1 Offers on Sustainable Finance'** to **HQ/Global Policy Network and other interested colleagues** to incorporate into their own work.
- 4 We are developing **e-modules to complement our face-to-face training, expand reach to ensure a blended approach to learning**, while leveraging and promoting e-learning that already exists at UNDP on sustainable finance.
- 5 We are working with the **Executive Office** to incorporate **futures and foresight** thinking throughout our training modules.
- 6 We will offer our training to governments and the private sector through a more **targeted approach, building on the ad hoc demand to date**.
- 7 We will work with regions to ensure we have the roster expertise we need to deploy **technical experts with varying geographic, contextual, language and sustainable finance skills to countries**.
- 8 We will continue to **evolve and develop a sustainable finance Community of Practice** which **promotes cross country and cross regional knowledge sharing**.
