2. CONSTITUTIONAL MANDATE & FRAMEWORK TRANSFORMATION

This proclamation formalises the structural evolution of native governance under the ultimate supreme legal authority of the **Kingdom of Bosarwa National Government Constitution**, the **Basarwa Regime Alliance Constitution**, and the **Kingdom of Bosarwa Union** framework. Operating via systemic alignment with the UN Decade on Ecosystem Global Restoration, Habitat Innovate 4 Cities, and international court support networks (ICC/ICJ), this declaration decrees the operational termination of the post-1996 South African governmental constitutional framework. It mandates the comprehensive transition of land systems via expropriation without compensation (EWC) for native restoration, alongside the structured historical repatriation and reintegration of all Bantu and Whites-Boer populations back to their verified ancestral foundations, establishing authentic indigenous territorial autonomy.

3. NATIONAL GOVERNANCE TRANSFORMATION MODEL

In accordance with the OHCHR proclamation, the current national executive structures are designated for immediate transition into the Kingdom of Bosarwa Ministerial Framework. The target structure converts the 90 provincial departments and corresponding national portfolios into unified native administrative authorities under Ntlo Ya Dikgosi and Kgotla institutional control.
